Accreditation is the state's most all-encompassing accountability system, measuring eleven different indicators including academic areas both tested and not tested by CSAP, school safety, and budget compliance. The state accredits districts, and districts, in turn, accredit individual schools.

School Performance Summary

Overall Academic Performance on State Assessments

Alternative Education Campus

Academic Growth of Students

Alternative Education Campus

The federal No Child Left Behind Act requires states to track whether schools are making "Adequate Yearly Progress"(AYP) toward the goal of ensuring that all students know and are able to do grade-level work in reading and mathematics.

¹Did your school make AYP in reading? No

Did your school make AYP in math? No

¹How many targets does your school have? How many were met?

¹Adequate Yearly Progress is met when all sub-groups including 30 or more students by ethnicity, economic status, disabilities and limited English proficiency meet 100% of academic targets on CSAP and CSAPA set by federal law.

STUDENT PERFORMANCE

Colorado students are assessed once a year in order to measure their performance on state academic content standards, using the Colorado Student Assessment Program (CSAP). The chart below shows the results for grades 9 - 10 in the subject areas for reading, writing and math for all students tested.

CSAP 2007 Spring

Note: Percentages may not add to 100 due to rounding

	Percent of Students Scoring Proficient and Advanced			Student Test Scores Used For Calculating Overall Academic Performance	
	Your School	District	State	Test Scores Counted	Test Scores not used due to Language
Grade 9-10 Reading	60%	70%	68%	75.3%	0.0%
Grade 9-10 Writing	33%	52%	50%	24.7%	0.0%
Grade 9-10 Math	8%	34%	33%	0.0%	24.7%

Each school in the State received a rating of "Excellent", "High", "Average", "Low", or "Unsatisfactory" for student academic performance in school year 2006-2007 using the CSAP results printed above. Every student in this school who took these tests was included in the calculation used to assign a rating, except for students who do not speak English, or who are eligible for the state alternate assessment for students with disabilities, or who enrolled in the public school after October 1 of this school year. The percentages of students whose scores were included in the calculation or were not included in each of the three categories is shown on the above chart. Your school's rating was determined by the percentage of students performing in each of the Advanced, Proficient, Partially Proficient, and Unsatisfactory levels. These percentages were weighted and combined across grade levels and academic areas. These weights reward performance at the Advanced and Proficient levels over performance at the Partially Proficient and Unsatisfactory levels. The ratings were assigned after calculating the weighted total for each academic area and grade level for each school and comparing this school to all other high schools for the 2006-2007 school year.

QUESTIONS PARENTS SHOULD ASK

Alternative schools are not included in the rating of schools. Unique curricula, learning environments, social variations and other variables do not equally enable alternative schools to be rated and, thus, be compared to other schools in the state. Below are some frequently asked questions that may be helpful in ensuring your child is receiving the best education while enrolled in an alternative

Is my child required to take the Colorado State Assessment Program test (CSAP) even if he or she attends an alternative school?

Yes. All students in grades 3-10 are required to take an assessment in reading, writing and math, and science in 8th grade, and the ACT in 11th grade. If a student has a disability he/she will participate in the State assessment system through the Colorado Student Assessment Program (CSAP) or the CSAP-Alternate (CSAPA). The CSAP A is intended for a very small group of students on Individual Education Programs (IEPs) who require significantly different instructional and technological supports to progress in their learning. The CSAP and CSAPA is reflective of your child's learning experience. You might want to ask his or her teacher what you can do as a parent to help your child do his or her best on the test.

Since all students take the CSAP or CSAP A, why is my child's school not rated?

Alternative schools were created to serve particular populations of students. (e.g., at-risk, gifted & talented, magnet programs). The CSAP or CSAP A will help students and parents gauge whether they are doing well in school and what areas may or may not need improvement. However, even though some of Colorado's alternative schools are exceptional, on a statewide basis it is difficult to rate and compare whole alternative schools given such variations in curricula and student populations.

How do I know my child is progressing and the school is meeting my child's needs?

All students take the CSAP or CSAP A assessment and a copy goes home to parents. The information contained on this report identifies where your student is academically. If you see that your child is behind, contact your teacher to determine what steps need to be taken to receive additional help.

What is the school doing to make sure its students are doing the best they can do?

If your child needs extra help, the school should be able to provide it. Ask about how it plans to make sure all students are learning what needs to be learned, which areas still need improvement and what is being done about it.

Based on this school's academic performance, your child may be eligible for one or more of the following; ask your school if your child qualifies for:

- After-school and summer-school classes
- Tutoring
- Mentoring
- Other extra help outside of regular school hours
